...all part of an affordable solution

MentorNet provides you with a user-friendly and affordable mentoring system that makes your mentoring programmes more effective by improving communication and networking, reducing administration time, and allowing you to monitor your mentoring relationships.

## Communication & Networking

*The integrated social networking capabilities make MentorNet an ideal fit for all types of mentoring programme. The ease of communication makes MentorNet particularly suitable for eMentoring programmes, allowing mentoring relationships to be managed over geographically dispersed locations. Features include:*

- **Messaging** – a familiar and secure messaging area that allows mentors and mentees to have confidential conversations with each other
- **Discussion Forums** – providing a collaborative place for users to exchange information on specific topics, with a 'featured blogs' area that highlights key contributors

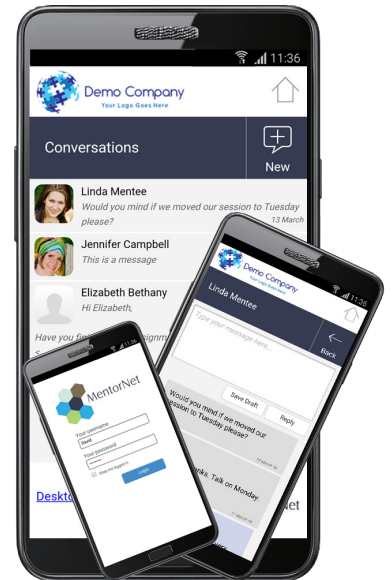

- **Activity Logs** – allowing both mentors and mentees to write reports and make notes throughout the mentoring relationship, also making it easy for administrators to monitor and evaluate engagement
- **Automated Alerting** – create instant, daily and weekly digests to alert users of new messages, forum posts, etc
- **Knowledge Base** – share and publish resources, useful documents, news articles, web sites, etc, so that mentors/mentees can share best practice and learn from each other
- **Smartphone Support** – communicate securely with other mentors and mentees through the smartphone-friendly mobile version

# MentorNet – Product Features

## Reduce Administration Time

*MentorNet allows administrators to focus on the effectiveness and value of the mentoring programme rather than the bureaucracy that often detracts from the relationship building.*

- **Easy to Implement** – MentorNet is web-based 'Software-as-a-Service' (SaaS) software and so needs no installation. It can be set up and customised to your requirements almost instantly
- **Fits your Mentoring Programme** – equally applicable to face to face mentoring or eMentoring and flexible pricing options cater for small or large mentoring programmes
- **Security** – security is highly customisable, allowing administrators to define exactly who has access to what and who is allowed to communicate with whom
- **Confidential** – All communication between mentors and mentees is secure so the mentor/mentee relationship remains totally confidential. The administrator can oversee and moderate all aspects of the relationship so is able to detect inappropriate activity or communication
- **Expenses Management** – streamlines the expenses process by allowing mentors to log and submit expenses on-line and for administrators to approve them electronically
- **Free 30-day trial available** – meaning you can find out whether it's suitable before you commit to any cost

Smartphone Support

## Monitor Your Mentoring Relationships

*The reporting capabilities of MentorNet give the administrator key information about the effectiveness of each mentoring relationship and allow the administrator to focus on those relationships that require guidance or intervention.*
